GSZ14 ENERGY-EFFICIENT HEAT PUMP

Thank goodness for Goodman[®].

Air Conditioning & Heating

ENERGY EFFICIENCY

As the owner of an efficient Goodman® brand GSZ14 R-410A Heat Pump, you have made one of the best purchasing decisions possible in the HVAC marketplace. At Goodman, we strive to build heating and air-conditioning equipment that offers high performance, energy efficiency, durability, and an environment-complementing design – all at a price that will have you saying **“Thank goodness for Goodman.®”**

In particular, your Goodman brand GSZ14 Heat Pump will provide you with reliable cooling and heating at money-saving energy efficiency levels as compared to lower SEER heat pump units.

COMFORT. SAVINGS. PERFORMANCE.

ENJOY THE COMFORT

You can count on your Goodman brand GSZ14 Heat Pump to keep you cool on even the hottest summer days and warm on the coldest winter nights. Your Goodman brand air conditioner starts with an energy-efficient compressor, which operates in tandem with our high-efficiency coil. The coil is made of rifled refrigeration-grade copper tubing and corrugated aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

Goodman's SMARTCOIL 5mm tube condensing coil design optimizes the heat transfer ability of R-410A refrigerant compared to standard 3/8" copper tubing.

SMARTCOIL™ TECHNOLOGY SMALLER IS SMARTER

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available. Today, the Goodman brand has improved upon this industry standard by making the condenser coil copper tubing smaller and smarter. The result is an air conditioner unit that can offer high-efficiency, use less refrigerant, and deliver money-saving and energy-saving comfort to you for years and years.

QUIET YOU CAN COUNT ON

We know that the last thing you want to hear at night is a noisy air conditioner starting up. So, we build our Goodman brand GSZ14 Heat Pumps with sound-dampening features that help ensure that your cooling system doesn't interfere with a good night's sleep. We rely on a quiet condenser fan system – a three-bladed fan and a unique louvered sound-control top – to reduce fan-related noise. Your Goodman brand GSZ14 Heat Pump will keep your home comfortable, year after year.

R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, your new Goodman brand GSZ14 Heat Pump system will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors.

IMPRESSIVE FEATURES AND BENEFITS: **GOODMAN® BRAND GSZ14** **R-410A ENERGY-EFFICIENT HEAT PUMP**

- Up to 15 SEER and 9.0 HSPF
- An energy-efficient scroll compressor
- A factory-installed bi-flow liquid-line filter drier
- Copper tube/aluminum fin coil
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil
- Brass liquid and suction line service valves
- A high-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- AHR certified, ETL listed
